Ronak Group is aspiring to become a global marketing company in the near future with soft & hard infrastructure. We believe that human capital is the real asset of any company - the individuals who will help us in explore new horizons. Therefore our company has started focusing on nurturing employee talents at every stage.

We source different stones directly from quarries and process them at our factory in various finishes like natural honed, polished, calibrated, brushed, sandblasted and tumbled in hand cut or machine cut edges. We have a team of experienced professionals looking after processing, dressing, inspecting and shipment of these natural building stones.

We have exclusive quarries of natural stones that are associated with our state-of-the-art calibration & polishing plant and our gang saw units. We have sophisticated stone-cutting plants that enable us to cater to the specifications of our clients. Our calibration plant utilizes new-age technology which is capable of producing items to meet the high precision requirements of any project.

We have got master craftsmen which craft these stones and when these are polished and finished to perfection. These items reflects truly fantastic stunning and simply enchanting that leaves the onlookers spell-bounded. Our exquisite range of these stones & items are available in traditional as well as in contemporary styles that are specially designed to add a delicate touch to the environment. With distinguished designs vibrant colors impeccable finish and great prices our products are specially carved to cater to our clients' aesthetic taste. Color and style co-ordination is chosen to enhance the intrinsic value of each piece carved. Every piece is uniquely hand-made and meet clients' expectation.

Quality Assurance

Ronak Rocks Pvt. Ltd. has satisfied the requirements of countless buyers that represent more than 35 countries. Every slab and product that we carry the stamp of world class quality. The entire manufacturing process takes place under the direct supervision of skilled quality inspectors. It ensures the best quality at attractive prices.

GRANITES

Granite is a very hard and lustrous stone that is highly durable, stain resistant and scratch resistant. Its crystalline texture and large variety of beautiful colors makes it the favorite stone for a host of applications. It is one of the popular natural stones for making calibrated tiles, structural building slabs, memorials, kerbs and landscape garden stones.
